BOARD & TRAIN PROGRAMS

Our Adult Board & Train Program (ABT) is an intense training program where we work with your dog 24-hours a day, 7 days a week to give you a great, balanced, and well-behaved dog by removing bad habits and putting a strong routine into place to pattern in good behaviors.

We train all our dogs, going through our behavior modification programs, on the e-collar technology to ensure the dog's good behavior once it goes home. We have found that remote training gives clearer communication to the dog from the owner, so there is no confusion.

Our highly affective programs make us able to consistently provide amazing results for any and all dog behavior issues.

All of our training programs include:

- 1 training collar
- 1 go-home session at the end of the program, where we transfer all of the information, techniques, and strategies to you to ensure continued success
- 2 follow-up sessions: one at 2 weeks after your dog goes home and one about a month after your dog goes back with you to makes sure everything is still on track
- Email and phone support during and after the program is completed

BOARD & TRAIN with Behavior Modification

4-8 weeks

ABOUT THIS PROGRAM:

Is your dog barking or lunging aggressively at others in the house or walking down the street? Has your dog ever bitten anyone? Is it a guarantee that your dog will bite someone that gets too close or fight another dog? What about children? Has your dog ever tried to bite you for any reason? This intense training program is designed to modify a dog's major behavioral flaws. Just like with humans, correcting bad behavior in dogs takes time and consistency. In some cases, it is impossible to guarantee fixes of major behavioral issues. However, we do provide all the training tools and knowledge needed to manage your dog's behavior. The longer the dog stays in training the better the dog learns its new good behaviors. It helps change the dogs state of mind which then helps with the unwanted habits. This will help shape the dog into a well-trained and behaved family pet.

- Behavioral issues include all the ones in our 2-week program PLUS:
 - Dog/animal aggression
 - Aggressive towards people
 - Fear aggression
